

OBJECTIVE

Motivated Computer Science student with strong foundations in Web Development and AI. Skilled in Python, C++,Data Structures, and Flask, with hands-on experience in building real-world applications. Seeking a challenging role to apply problem-solving skills and contribute to innovative software solutions.

Education

Bachelor of Engineering (B.E.) – Computer Science and Engineering
Basaveshwar Engineering College, Bagalkot
2022 – 2026 | CGPA: 7.74
Pre-University (PUC)
Shree Gavisiddheswar PU and Degree College, Koppal
2020 – 2022 | Percentage: 90.5%
High School
S S P U College, Alwandi, Koppal
2017 – 2020 | Percentage: 92.96%

Skills

- Programming Languages:
- C++, Python, C, Java(basics)
- Web Technologies:
- HTML, CSS, JavaScript, Flask, MERN
- Database Systems:
- SQL, MySQL, MangoDB
- Core Concepts:
- Data Structures & Algorithms, Object-Oriented Programming (OOPs), Operating Systems, DBMS, Computer Networks
- Tools:
- VS Code, Jupyter Notebook, GitHub, Canva, Excel, Eclipse

Projects

- AI Video Quiz and Notes Generation Platform(June 2025 - Jan 2026).
- Developed an AI-powered platform using NLP and Transformers to generate summaries and quizzes from educational videos
 - Implemented speech-to-text and video analysis to extract key concepts and insights
 - Generated MCQs, short-answer, and Yes/No questions automatically, improving learning efficiency
- Parking Management System(Aug 2024 - Jan 2025).
- Developed a Flask-based web application for real-time parking slot tracking and management
 - Implemented database integration (MySQL) and user-friendly interface for efficient slot allocation
 - Enhanced system usability and reduced manual effort in parking operations

Experience

- Full Stack Developer Intern
Vision Astra EV Academy
Feb 2026 – May 2026
- Developing a Smart EV Fleet Monitoring & Charging Ecosystem using MERN stack (MongoDB, Express.js, React, Node.js)
 - Designing a real-time dashboard to monitor battery status, vehicle location, and charging data
 - Building RESTful APIs and integrating frontend with backend services
 - Working on database design for storing vehicle, battery, and charging session data
 - Collaborating in a team to implement scalable and efficient full-stack solutions

Certifications

- Linux Administration Certification – Infosys Springboard
- Covered file system management, shell commands, and system administration basics

Key Achievements

- Secured 1st Prize in Tech Ignite 2.0 for outstanding project innovation
- Represented VTU Men’s Kho-Kho team (2024 & 2025) and secured 1st place
- Active IEEE member and participant in technical and innovation events
